Did You Know? “Neurotrauma is the leading cause of death and disability for Canadians under the age of 45. It has catastrophic and far-reaching impact on individuals and their families, our Healthcare system and communities.” (2002, Dr. Kent Bassett-Spiers, Director, Ontario Neuroscience Organization).

- Over 5,000 Albertans will head to hospital emergency rooms each year with neurotrauma

Where do the proceeds go?

Proceeds from the DASH FOR CASH are funneled into the Dave Irwin Brain Injury Foundation. The Vision of the Foundation is to:

Public Awareness

1. To stimulate public awareness and prevention of brain injury through a public awareness and prevention of traumatic brain injury campaign.

Further Research

2. To increase the level of understanding and knowledge of brain injury, and to improve the proficiency of treatment of brain injured persons through the funding of further research by leading neuro-scientists into all aspects of brain injury prevention, rehabilitation and treatment through the awarding of Research Grants.

Outreach Grants

3. To award Grants to assist organizations that provide rehabilitation and community outreach support services to brain injured Canadians through advocacy, education, and rehabilitation.
